Certifying Software Testers Worldwide

ISTQB® has created the world's most successful scheme for certifying software testers.
As of May 2020, ISTQB® has administered over 955,000 exams and issued more than 721,000 certifications in over 120 countries world-wide.
The scheme relies on a Body of Knowledge (Syllabi and Glossary) and exam rules that are applied consistently all over the world, with exams and supporting material being available in many languages.
